## Warm-up: Oil Well

The jack on an oil well goes up and down, pumping oil out of the ground. As it does so, the distance varies sinusoidally with time.
At time $=1 \mathrm{sec}$, the distance is at its maximum, 3.7 meters. At time $=4 \mathrm{sec}$, distance is at its minimum, 1.5 m .
a) Sketch a graph.
b) Write an equation.
c) Find the distance when time $=5.5 \mathrm{sec}$.
d) Find the first time when distance $=1.78 \mathrm{~m}$.
